1) The vehicle weight when ready for driving has been determined in accordance with regulation (EU) 1230/2012, but reflecting the drive load of the fresh water tank (see Fn. 2 and 4) and one gas cylinder (11kg)

2) Fresh water tank capacity according to Annex V, Part A, 2.6 FN. (h)Reg (EU) 1230/2012, considering the movement limitation 50 l drive load

3) The trailer load may vary depending on the equipment selected

4) Possible with the appropriate setting of the valve on the fresh water tank: max. 150 litres

## Please note

Information on weights and dimensions is implemented in accordance with Regulation (EU) 1230/2012 provided that the catalogue including technical data and price list contains no contrary information.

# EXCELLENT PARTNERS

Our commitment to quality is very high for every single FRANKIA motorhome, so we only work with the industry's best providers of technology, electronics, chassis, air-conditioning and heating systems.

QUALITY FOR LIFE

Thanks to the innovative lightweight design, the AL-KO chassis saves a significant amount of weight without compromising the excellent stability of the frame structure. The more weight our engineers save, the more you can take along with you!

## Innovative technology – without compromise

When you're on the road, you need to be able to rely on your on-board technology. BÜTTNER ELEKTRONIK guarantees smooth travels thanks to reliable technology made in Germany.

The most attractive way to travel. Say yes to new adventures and carefree holidays with Ducato and the exclusive Fiat services.
